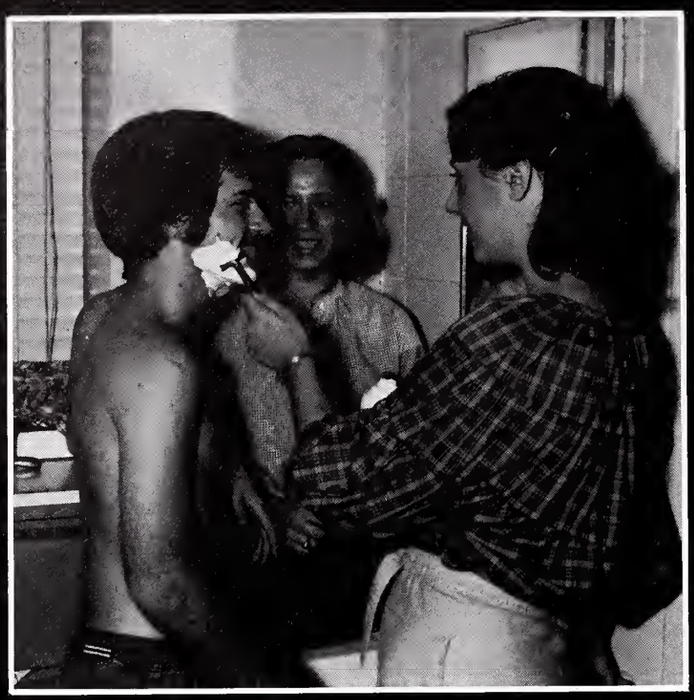
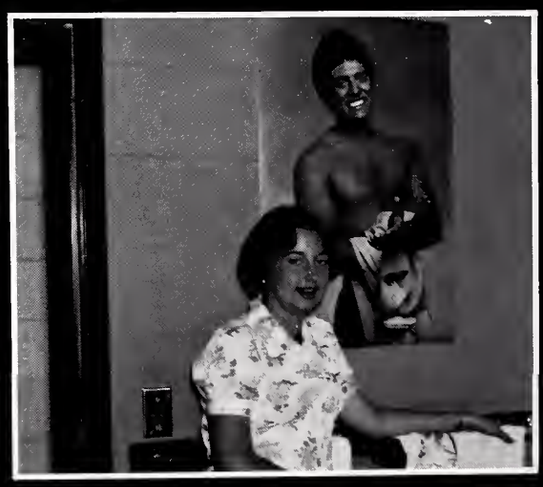
'Co-Lin Moving On'

Copiah-Lincoln
Junior College

Wesson Campus
and
Natchez Campus

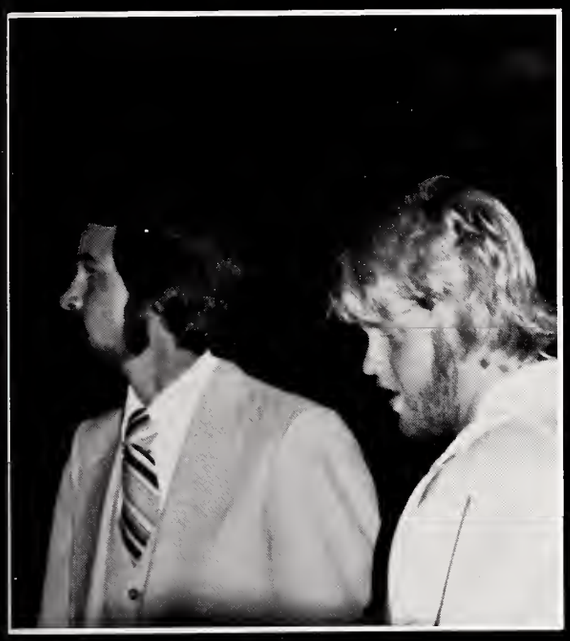
Wesson-Natchez, Mississippi





"Those were the days my friend,
We thought they'd never end
We'd sing and dance forever
and a day."

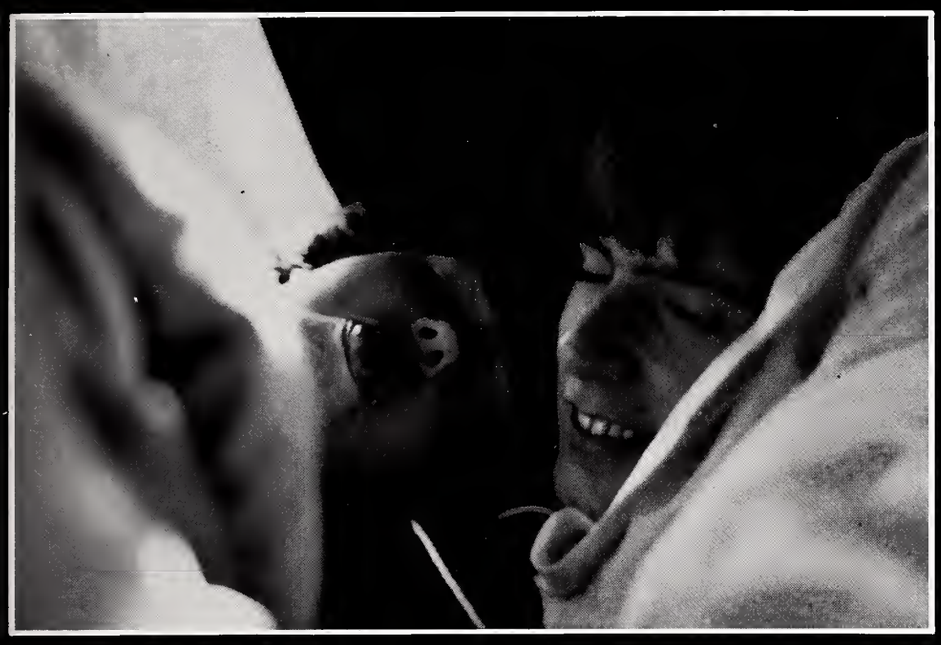
Coke



"We'd live the lives we choose
We'd fight and never lose
'Cause we were young
and sure to have our way."

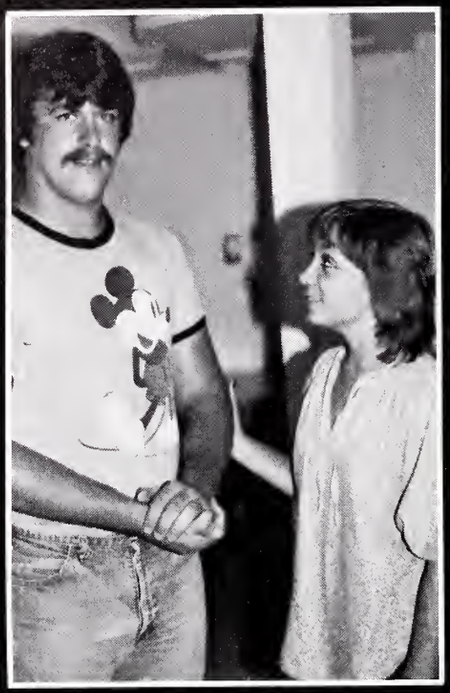
G. Raskin

Hitching a ride,
Chasing a ping-pong ball,
Or for that moment in flight,
Co-Lin and its students keep moving on.



45

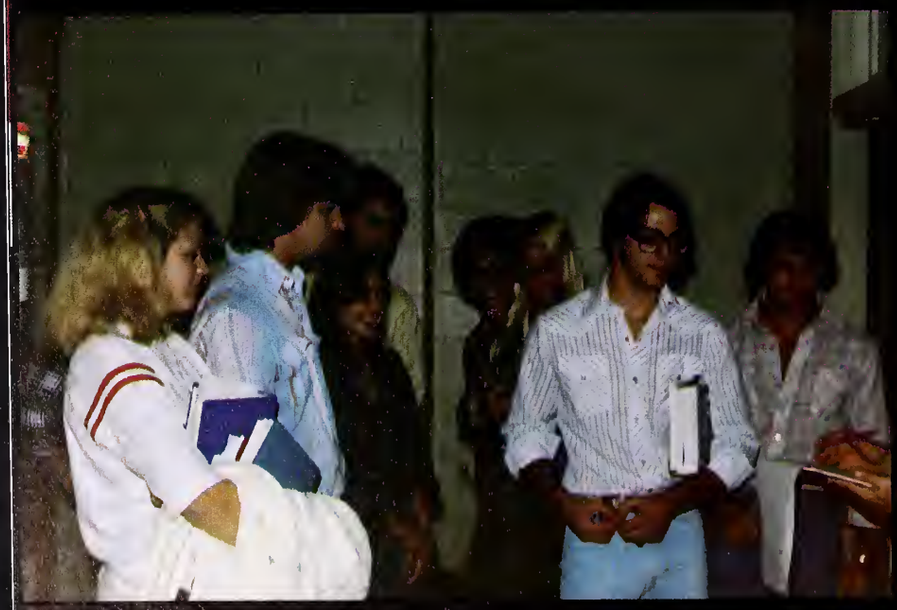
A dream of being a cheerleader,
of going for the touchdown,
The club work and practice hours
and even the school work
And always the student moves
forward.



Running to the grill,
Eating in the cafeteria,
Talking to friends,
Or finally getting to sit for a minute.

LANCE

GILWELL PARK



Since 1972 the Natchez campus has been moving on.
Students can enjoy fellowship;
Seek a quiet moment in the library,
Or a game of ping-pong in the Hob-Nob.

CO - LIN

Clowning in front of the Hob Nob:
Or hamming it up for the camera;
Making speeches or becoming acquainted
With friends you haven't met yet.
It's all apart of moving on in Natchez.

Dr. Billy Thames works hard for college district

COPIAH LINCOLN

N-SIGHTS

Copiah-Lincoln Junior College Natchez Campus, Natchez Ms. Vol. VII No. 1 November 6, 1979

Assumes new position in Jan.

Dean Smith moves to Wesson Campus

By Linda Green

One foot in Adams County and one foot in Copiah County? Yes. It's not Paul Bunyan, either. It's Co-Lin's own Dr. Eddie M. Smith.

Dr. Smith, the first and only Dean of Copiah-Lincoln Natchez campus, will move to Wesson in January to assume his new position as Dean of Instruction. Dr. Smith said, "I believe Co-Lin Natchez will operate more efficiently now that we will have instruction for the entire district under one administrative head."

He advocated that both campuses will become more effective as there will be more resources to draw from. Dr. Smith indicated that he did not anticipate any problems for the Natchez campus by his move other than administrative details. However, as Mr. Howell C. Garner will be Associate Dean and some of the workload will be shifted to other instructors, the problems should be minor."

In 197., Dr. Smith came to Co-Lin Natchez as Campus Dir. for He became Dean of Co-Lin Natchez in 1975. He had been Director of Academic Affairs at USM N and Acting Director of the Center prior to coming to Co-Lin.

Dr. Smith came to Natchez in 1965 from Mississippi State University where he had been working as a Research Assistant. He was employed in the Natchez-Adams Public School System as a classroom teacher in high school and junior high school. He has always loved classroom teaching but grew into administrative work gradually as Secondary Science Supervisor System-wide and then as Assistant Principal at South Natchez High School.

When asked about changes he had seen take place on the Co-Lin Natchez campus, Dr. Smith answered, "I had a unique opportunity to come in as the first administrator of a new institution and to see it develop from non-existence to where we are."

"We started out primarily as an institution to offer academic university parallel course work and from this we've gotten into the vocational technical areas, CETA manpower training areas, and an exemplary developmental studies program here on the Natchez Campus."

He explained the work in developmental studies here becoming so well-known to junior colleges state-wide and in other states that Co-Lin Natchez is contacted for references to set up effective programs elsewhere. This program is set up to implement the skills and needs of the individual and put the student into the main stream of college academic work.

When questioned about changes in students and attitudes since 1972, Dr. Smith said that although a quality educational program has been offered at Co-Lin Natchez since the beginning, it has only been recognized by the Natchez area people recently. He feels this improved attitude is due to the large number of students who are entering the higher institutions after graduating from Co-Lin Natchez and are maintaining better-than-average grades.

He is extremely satisfied with the quality of the programs maintained through the hard work of the instructors. He added that the composition of the student body has changed very little, since Co-Lin Natchez has characteristically served more older students than most of the junior colleges that have been established for many years. He said, "We're more of a true community college."

When asked about goals, he admitted, "I never feel that I have ever arrived. I always have additional goals and I'm constantly setting goals." He explained that some were short range goals, some were long range goals, and others were ongoing objectives.

He does feel that some of the goals are almost in reach, such as the implementation of a more complete efficient technical program on the Natchez Campus since application has been made for matching funds to construct a vocational-technical facility. Also, he anticipates the realization of the complete new campus on Beltline Highway in the not-so-distant future. As a matter of fact, he was still permeated with excitement from a meeting that day with the architects.

When questioned about goals for his new job, he stated his major emphasis will be in faculty development and improvements, improvements in service training programs, improved developmental programs, developmental skills programs and developmental skills laboratories.

When asked to share his feelings about moving to Wesson, Dr. Smith said that he is looking forward to it. He emphasized that he has been working with the administration at Wesson since 1972 and feels it is good to consider some moves such as this during a professional career. He said that his family is excited about the move but have mixed feelings about leaving friends and associates.

He professed some regrets about leaving Natchez. He said, "I have a lot of friends here. I'm a member of a number of organizations and am heavily involved at Parkway Baptist Church where I have been organist for 14 years. My wife, Charlotte, plays the piano for the mid-week services there and accompanies the youth choir that my daughters, Kelly and Wendy, sing in. But knowing that Wesson is close to Natchez is an excuse not to sever ties completely."

When requested for a parting message to the student body, Dean Smith said, "No, I'm not going to give a parting message to anybody, because I don't feel I'm really leaving. I will have contact with the campus and with the programs here I expect to be very much an integral part of what's going on on this campus as well as on the Wesson campus. Our program is larger at Wesson; therefore, it necessitates my being there more than here; that's why I'm moving there. However, I will be working with the program at the Natchez campus and I hope that we continue to grow and develop here as we have in the past."

Dr. Eddie M. Smith is pictured in the Dean's office at Co-Lin Natchez.

Five chosen to 1980's Hall of Fame

To be chosen to the Hall of Fame is the highest honor that can be given a Copiah-Lincoln Junior College student. The 1980 TRILLIUM presents three graduating sophomores in the twenty-seventh selection on the Wesson campus and two graduating sophomores in the third selection on the Natchez campus. Each was nominated in open nominations, approved by a screening committee of fellow students, recommended by a faculty committee on the basis of character, leadership, and contribution to Copiah-Lincoln Junior College. Dating back to 1954, this year's Wesson campus selection adds three to the list of 77 previous winners. The two Natchez campus selections add to six chosen since the initiation of the Hall of Fame in 1978.
